AP Hogeschool, Antwerpen

2021 - 2023

Employment

Full Stack Developer

Self-employed, Antwerpen

Nov 2024 - Present

Developed a Booking Management System using **Node.js**, **Vue.js**, and **MySQL**. Implemented secure authentication and authorization with Keycloak. Containerized the application using Docker for easy deployment and scalability. Designed and managed the MySQL database to handle bookings for services such as saunas and wedding decorations.

Full Stack Developer

Inuits, Antwerpen

Feb 2023 - Sep 2024

- **DAMS System:** Developed a Digital Asset Management System (DAMS) using Vue.js and GraphQL. Responsible for the full development of the application and its integration with the GraphQL backend.
- **Agency for Home Affairs:** Developed a government website using Ember.js and Node.js, enabling municipalities and institutions to manage their data independently without additional approvals. Acted as a full-stack developer, ensuring the portal was user-friendly and optimized for efficient data management.
- **Park and Seat Application:** Focused on creating automated tests using Cypress, which streamlined the testing process and ensured a reliable and efficient release cycle with each deployment.
- **IIIF Application:** Conducted an in-depth analysis of IIIF (International Image Interoperability Framework) libraries to determine the best solution for annotations. Developed a proof of concept using Vue.js to demonstrate the suitability and functionality of the application I created, and provided the necessary documentation to support its implementation.

Chauffeur

Mobiliteitsdiensten Belgie BVBA, Antwerpen

Mar 2022 - Jul 2023

Provided professional and discreet transportation services to clients, ensuring punctuality and comfort. Developed strong communication skills and maintained high standards of confidentiality and customer service.

Technical Support

Beego, Antwerpen

Mar 2021 - Mar 2022

Provided in-home tech support to clients, helping them with computer and internet issues. Assisted with setting up devices, troubleshooting problems, and teaching basic digital skills.

Electrician

Wivo Elektro BVBA, Antwerpen

Mar 2016 - Aug 2020

Independently installed electrical systems and troubleshooted existing installations, ensuring all work adhered to safety standards and regulations.
